

*In 2009, an estimated 12 percent of persons aged 12 or older drove under the influence of alcohol at least once in the past year.*

**~ SAMHSA**

*No single factor can predict whether a person will become addicted to drugs. Risk for addiction is influenced by a combination of factors that include individual biology, social environment, and age or stage of development. The more risk factors an individual has, the greater the chance that taking drugs can lead to addiction.*

**~ National Institute on Drug Abuse**

*The costs of drug abuse are as substantial as that of other chronic conditions:*

- *Diabetes costs society \$131.7 billion annually*
- *Cancer costs society 171.6 billion annually*

**Skyline Madison Campus offers Intensive Outpatient Treatment for adults suffering from drug and alcohol abuse/dependence or co-occurring disorders.**

**TRISTAR BEHAVIORAL  
HEALTH SERVICES**

*In 2009, about 10.4 million persons aged 12 to 20 reported drinking alcohol in the past month.*

*~ SAMHSA (Substance Abuse and Mental Health Services Administration)*

*A majority of underage current drinkers reported that their last use of alcohol occurred either in someone else's home or their home.*

*~ SAMHSA*

*Underage drinkers are more likely to use illicit drugs within 2 hours of alcohol use than persons aged 21 and older.*

*~ SAMHSA*

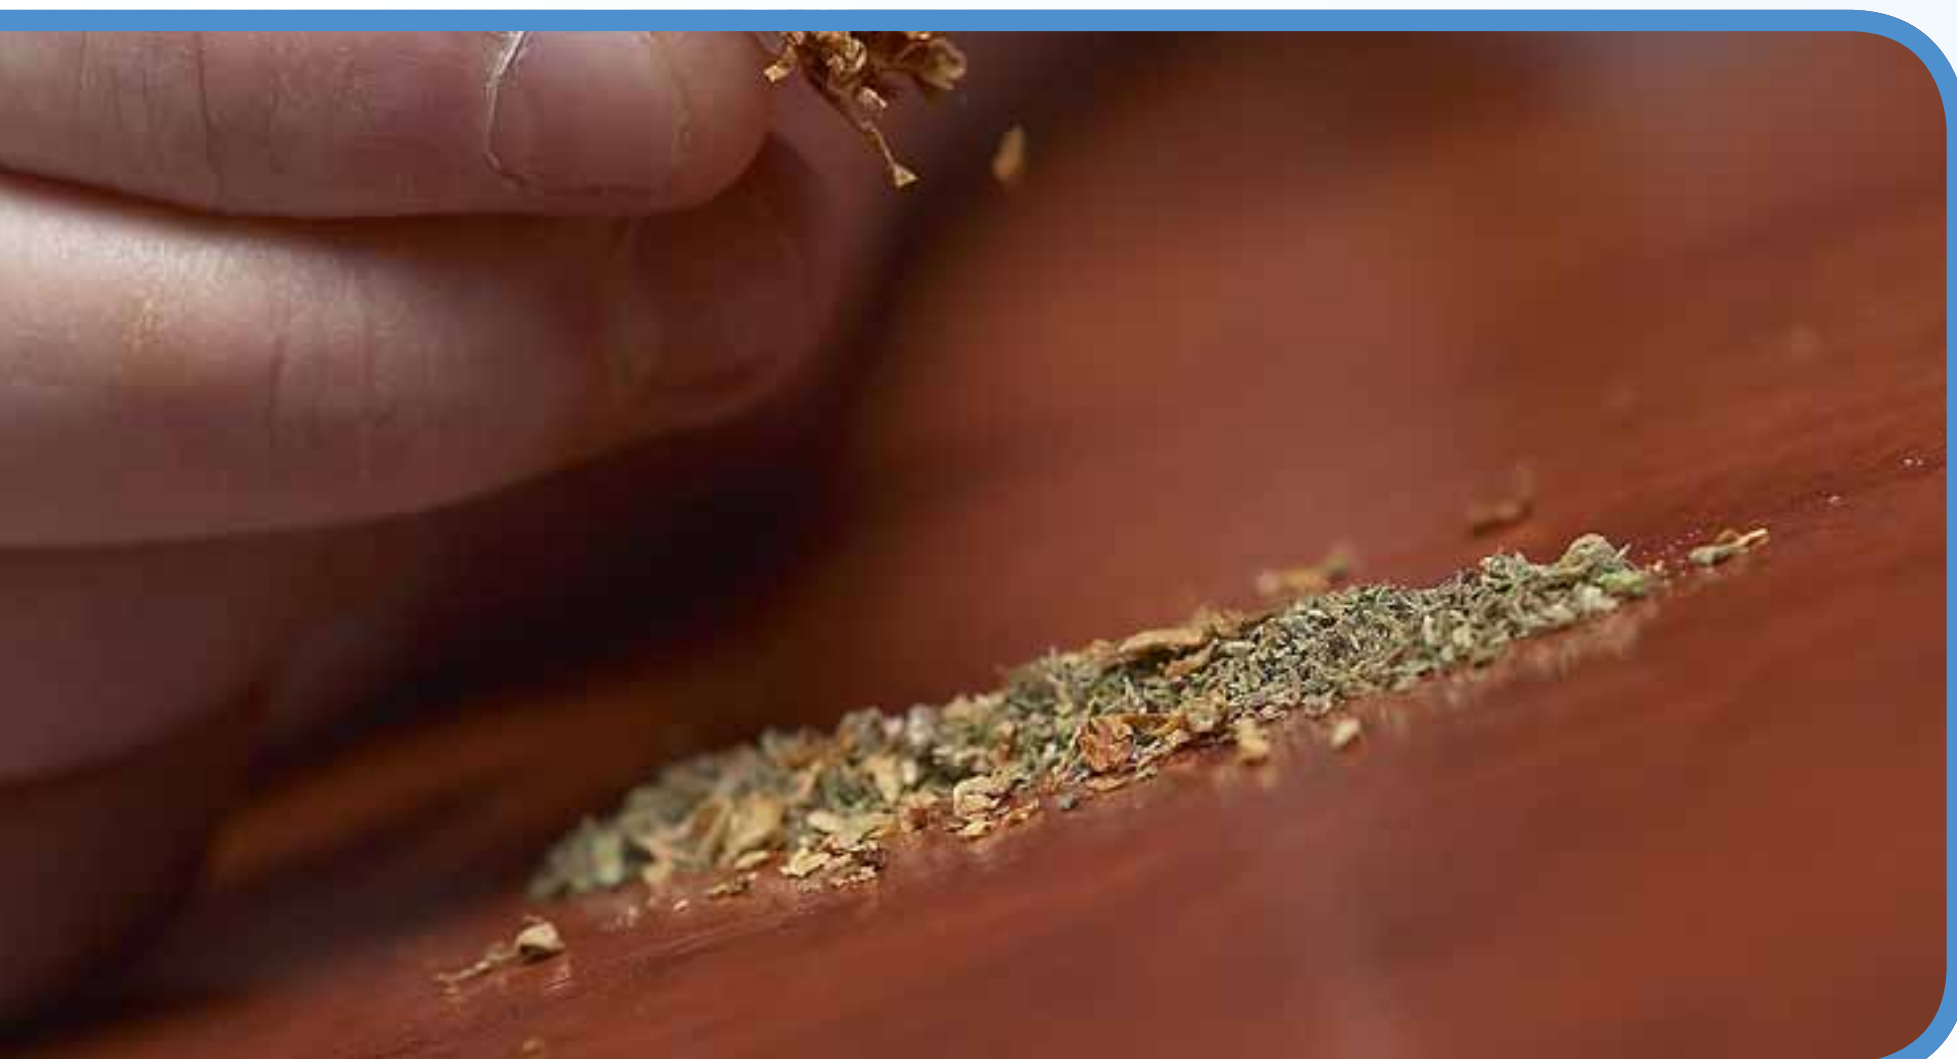

*Over half (51%) of America's teenagers have tried an illicit drug by the time they finish high school.*

*~ National Institute on Drug Abuse*

*Marijuana is the most widely used illicit substance in this country. In 2003, 14.6 million people were current users of marijuana.*

*~ National Institute on Drug Abuse*

**Skyline Madison Campus offers Intensive Outpatient Treatment for Adolescents suffering from drug and alcohol abuse or dependence.**

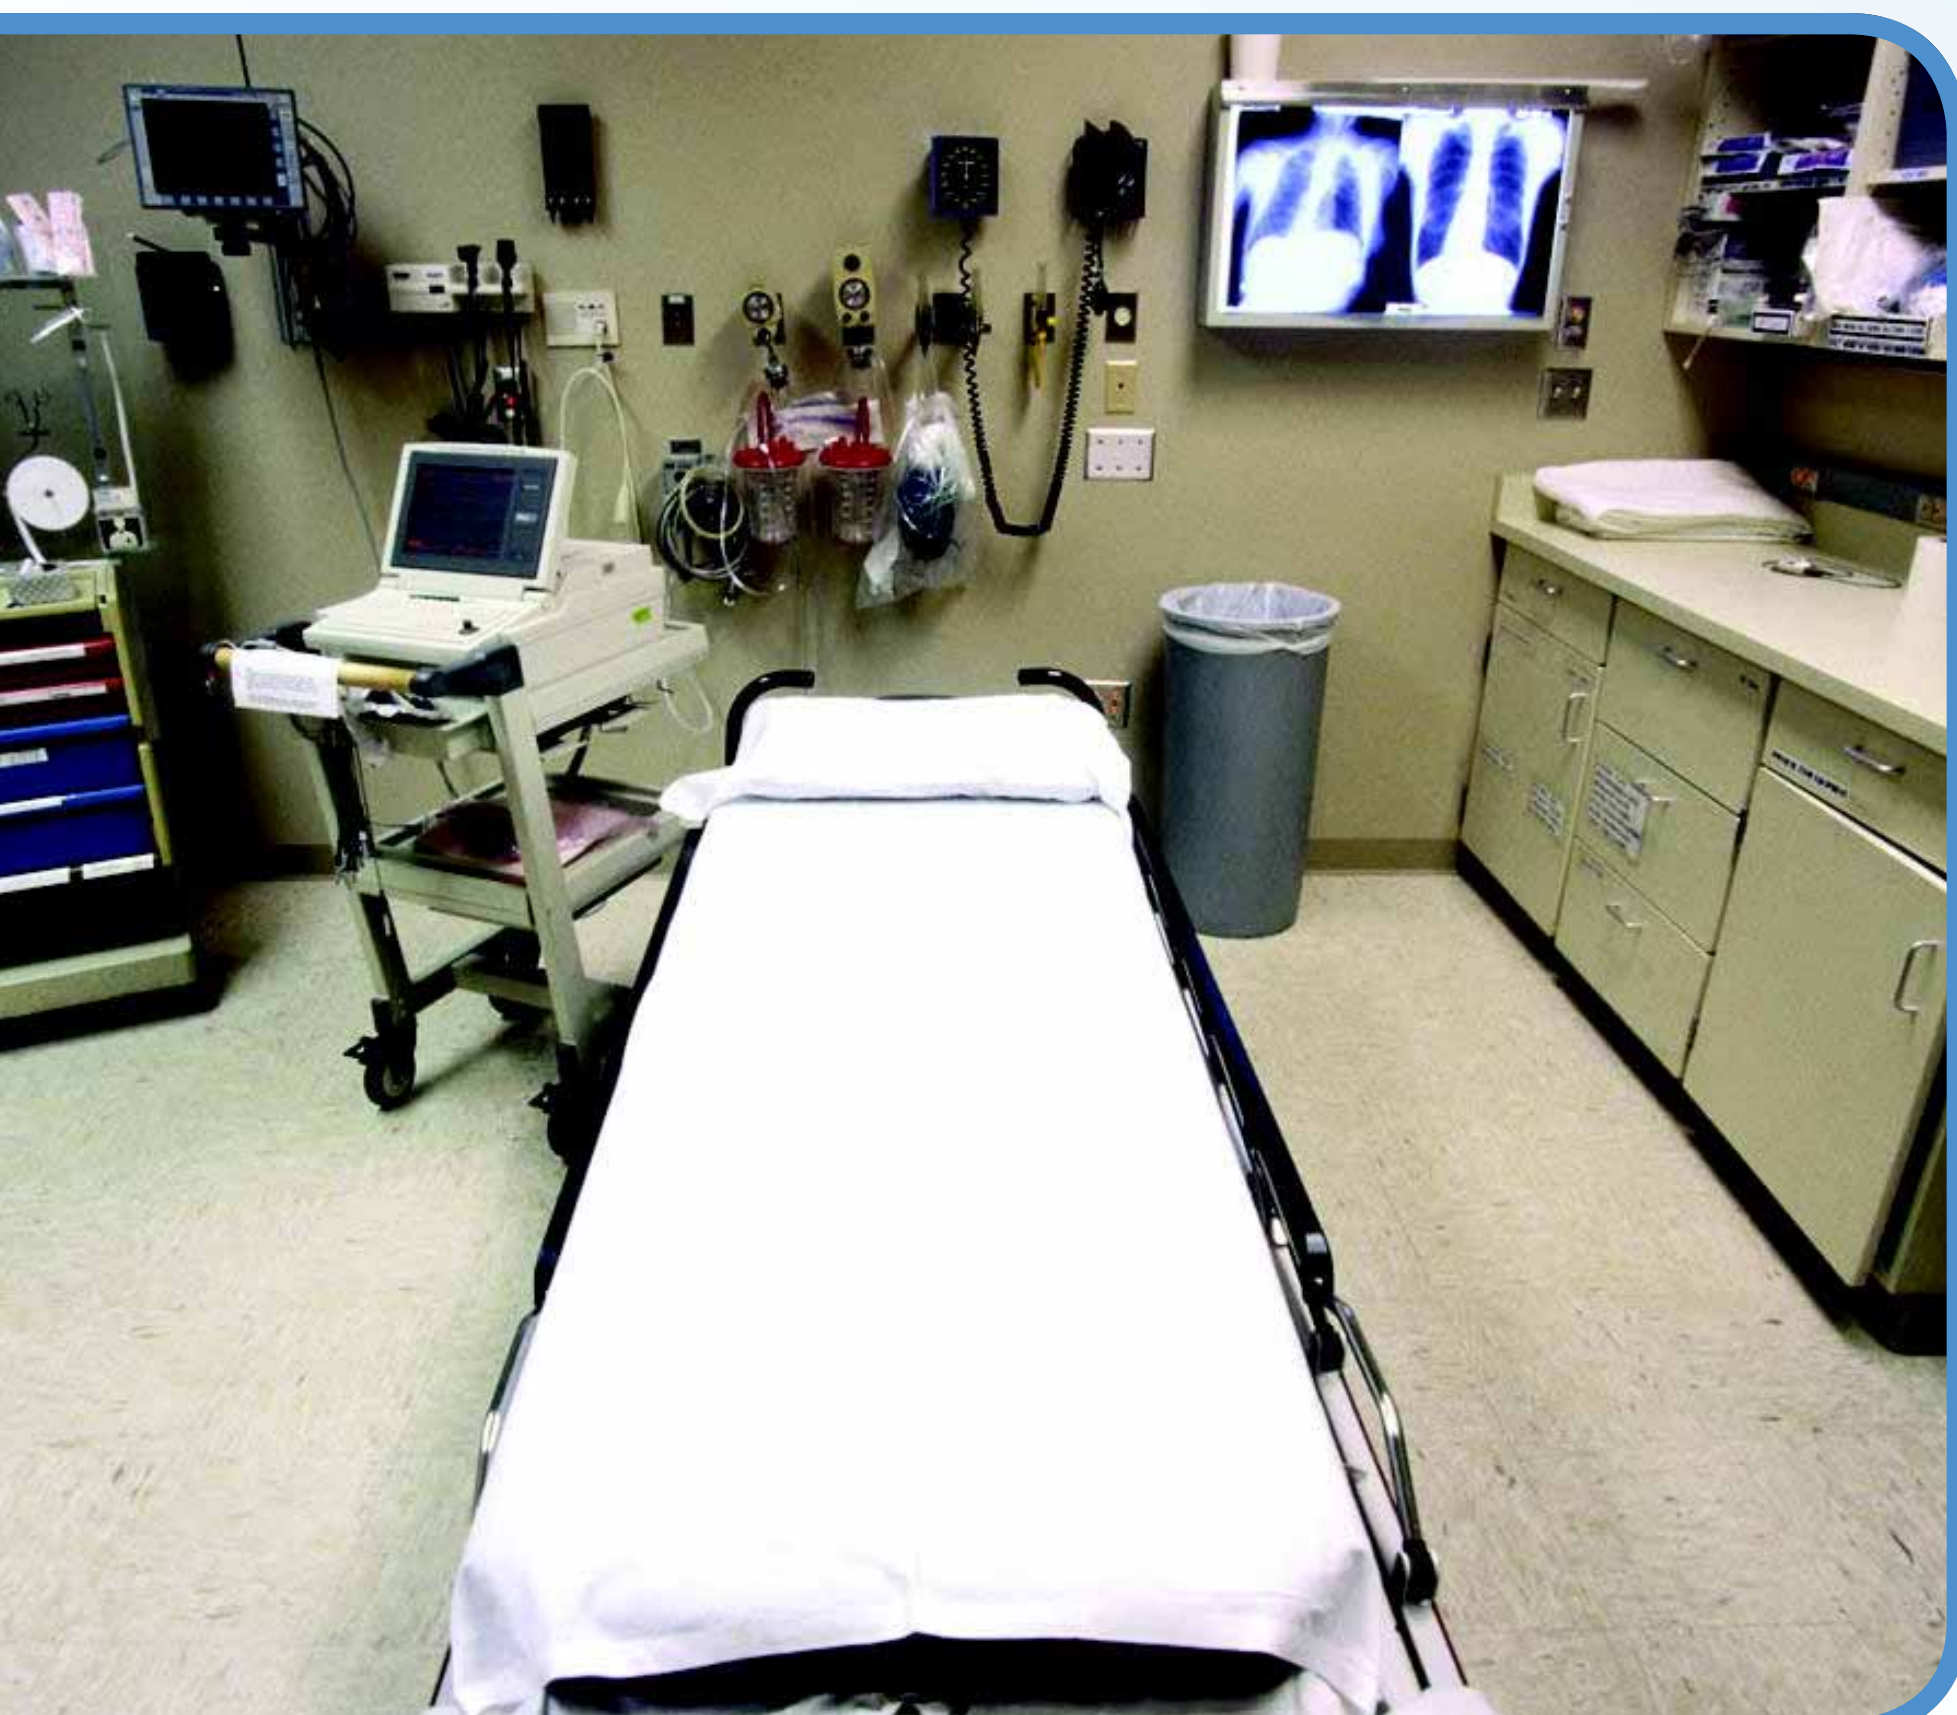

*One in four adults — approximately 57.7 million Americans — experience a mental disorder in a given year.*

**~ National Institute of Mental Health**

*Four of the 10 leading causes of disability in the US and other developed countries are mental disorders.*

**~ The World Health Organization**

*The economic cost of untreated mental illness is more than 100 billion dollars each year in the United States.*

**~ NAMI Fact Sheet**

**TRISTAR BEHAVIORAL  
HEALTH SERVICES**

*Among Veterans of the wars in Iraq and Afghanistan who received care from the Department of Veterans Affairs between 2001 and 2005, nearly one third were diagnosed with mental health and/or psychosocial problems and one fifth were diagnosed with a substance use disorder.*

**~ National Survey on Drug Use and Health**
